eGroup Achieves Microsoft Gold Cloud Productivity Competency

Mt. Pleasant, SC, September 2, 2016 – eGroup, the Southeast’s leading provider of data center architecture, cloud and managed services, announced that it has achieved the Microsoft Gold Cloud Productivity Competency.

The Microsoft Partner Network offers six Centers of Excellence for Microsoft Competency Partners, including the Cloud Productivity Competency for partners deploying Microsoft Office 365 for Enterprise customers. eGroup has attained the Gold Cloud Productivity Competency as a result of successfully completing qualifying technological exams, reaching the required sales goal and submitting customer references demonstrating successful Microsoft Office 365 deployments.

“Microsoft Office 365 and other productivity solutions have been a big success for our clients,” states Jason Webster, eGroup Director of Cloud and Managed Services. “We have been able to help them get more done with a great set of productivity tools as well as free up their time and money spent managing on-premises solutions so they can apply it towards their business.”

The Gold Cloud Productivity Competency demonstrates a partner’s best of breed Office 365 deployment capabilities and commitment to delivering cloud and hybrid solutions. As a Gold Cloud Productivity Competency holder, eGroup has earned new benefits and support to meet the needs of its customers and their developing demand for Microsoft Office 365 solutions.

“The New Microsoft Competencies aren’t just about taking tests, we have to prove our expertise in the field and achieve high customer satisfaction,” states Webster. “We are proud to say that we have achieved the highest competency level with this GOLD competency.”

About eGroup

Founded in 1999, eGroup provides innovative data center architecture, cloud, and managed services to businesses across the Southeast. Recognized by INC 5000 as one of the fastest growing private companies for four consecutive years, eGroup’s solutions drive customer revenue while minimizing IT costs. With their four-phased project methodology—which encompasses consultation, design, deployment and support—eGroup prides themselves on their customer-driven approach to IT. With access to the best minds in the industry and a can-do attitude, eGroup adopts best-of-breed products, services, and technologies to support their clients’ success.

About Microsoft Competency Partners

As part of the Microsoft Partner Network, Microsoft Competency Partners demonstrate proven expertise in delivering quality solutions in a specialized area of business. Each Microsoft Competency is designed to meet the unique and evolving needs of customers along with being recognizable to prospective ones.
